Re: Additional Information, Notice of Intention to Commence Small Mining Operations, Peacock Mining Company, Inc., Sandra J. Project, S/019/039 (ML-47374), Grand County, Utah

Dear Mr. Bohrer:

Thank you for the additional information provided in response to the April 8, 1997 Division letter. We received your information on April 16, 1997. The additional description of your proposed mining process with diagrams, maps and photographs have satisfied the concerns outlined in our previous letter. The typical operation shown in the photographs appears to be the old A to Z Mine S/047/053 along the Green River in Uintah County which was permitted with our office with you and Frank Dvorak listed as operators. Our telephone conversation of April 11, 1997 was also helpful in understanding your proposed operations.

This Small Mining Operations Notice of Intention now meets the requirements of Rule R647-3 of the 1988 Division of Oil, Gas and Mining Minerals Rules and Title 40-8, et seq., of the Utah Mined Land Reclamation Act of 1975. You now have Division approval to begin operations as described in this notice. Please be advised that will need the appropriate approvals from the School Institutional Trust Lands Administration and other pertinent regulatory agencies before beginning operations.

If you have any questions regarding this letter, please contact me by phone at (801) 538-5267 or by letter at the address on the letterhead. I have spoken with Rich Maclure of the Moab BLM office over the phone regarding the planned site visit on May 5, 1997 and I hope to attend. Thank you for your continued cooperation.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
